

FH220 ALUMINUM RETRACTABLE LOUVERED PERGOLA

Outdoor Space Solutions
Adorn Taste Life, Paint a Colorful Life

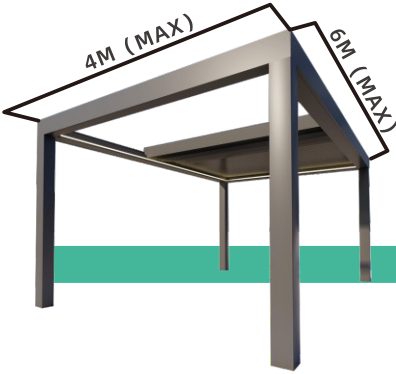

Retractable Louvered Pergola

The retractable louvered pergola is an architectural masterpiece made of full aluminum, capable of various form transformations. The blades can be fully folded and retracted to one end. When the blades are completely retracted, the translucent space can reach 75%, allowing you to enjoy the panoramic sky. When closed, it provides shade from direct sunlight and blocks rainwater. The material is resistant to harsh weather and environments, making it sturdy and durable, with a lifespan of up to 20 years.

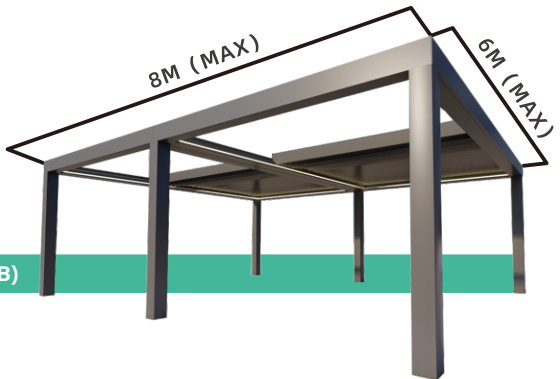

Specifications

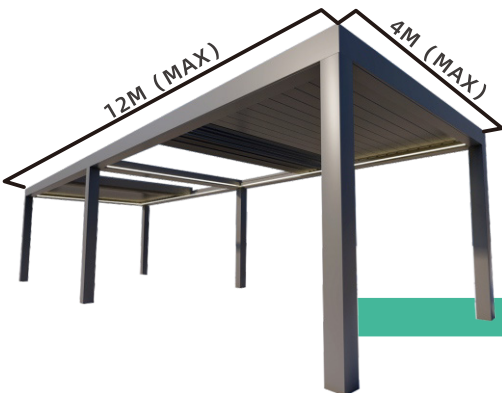

DIFFERENT TYPES

Four columns (Group A)

Support electric drive, six columns (Group B)

MIX AND MATCH
